

CCSBT-EC/2010/05

DRAFT REVISED 2020 BUDGET

Purpose

To agree a revised budget for 2020.

Discussion

A draft revised budget for 2020 is provided at **Attachment A**. The revision incorporates actual income and expenditure as at 2 September 2020 together with forecast income and expenditure for the remainder of the year.

With the exception of South Africa, all Members have paid their 2020 contributions to the CCSBT in full. The draft revised budget assumes the following outstanding payments will be made by South Africa prior to CCSBT 27:

- \$154,989 for South Africa's overdue 2020 Membership contribution to the CCSBT; and
- \$5,576 to refund the cost of CDS tags that were delivered to South Africa in November 2019.

Given the above assumptions, the forecast final income and expenditure for 2020 is provided at **Attachment A**.

The variations in income for 2020 from that approved by CCSBT 26 were:

- A refund of \$250,788 for Australian GST¹ provided by the Australian Taxation Office for the period from June 2017 to December 2019;
- Increased returns of \$3,063 from the Staff Assessment Levy²;
- Improved returns on investments of \$1,688; and
- A reduction of \$310,000 in planned withdrawals from accumulated savings³.

Expenditure for 2020 is forecast to total \$2,586,936, which is a 23.6% decrease on the amount of \$3,387,500 approved for 2020. Savings are forecast across six of the seven expenditure areas of the budget. The forecast expenditure for 2020 is about \$9,000 lower than forecast in Circular #2020/072.

The reduced expenditure originates from four main sources, these being:

1. Impacts of the COVID-19 pandemic, including replacement of all physical CCSBT meetings with virtual meetings, an abbreviated tagging cruise for gene tagging; reduced Secretariat travel expenses, and deferred staff home leave.

¹ Good and Services Tax.

² The Staff Assessment Levy appears on both the income and expenditure side of the budget, so it has no net effect.

³ The reduction in withdrawals was possible due to reduced expenditure.

- 2. Restoring of certain Australian Goods and Services Tax (GST) exemptions to the CCSBT. This results in a 9.1% cost saving in relevant sections of the budget, these being the majority of the Science Program, Office lease and storage, Provision for new/replacement assets and about half of Office costs.
- 3. Reduced expenditure on trial eCDS development during 2020, due to a combination of the staff/consultant time available for development and the need to obtain feedback from Members before proceeding too far with the development.
- 4. Deferral of the Maturity study to 2021⁴.

Only one expenditure area of the budget, the "Secretariat costs", has an overall forecast increase in expenditure, which is a 2.4% increase. The main component of this increase is the 62% increase in the amount required for the staff liability fund⁵. This increase is primarily due to changes in United Nations salaries, particularly an adjustment of the "Post Adjustment Multiplier" for Australia in October 2019 to take account of the most recent UN cost of living survey. This change is outside the control of the Secretariat.

The draft revised budget for 2020 provides a carry forward of \$746,102 from 2020 to 2021 together with preservation of the \$310,000 that had planned to be withdrawn from savings.

The Extended Commission is invited to consider the forecast final income and expenditure in **Attachment A** for the revised budget for 2020.

Prepared by the Secretariat

⁴ This work has been deferred while waiting for ovary histology from a Member and because it will be difficult to read the histology until laboratories open up further after COVID-19 restrictions ease.

⁵ On separation from the CCSBT, the CCSBT Staff Regulations grants each staff Member 4 weeks of pay for each year of service (except the first year) plus a repatriation allowance for foreign staff recruited from overseas. The staff liability fund covers this accumulating liability.

| INCOME | 2020 APPROVED BUDGET | Forecast Final Income | % Variation | |
|--------------------------------------|----------------------------|--------------------------|----------------|--|
| I (COMIZ | | | | |
| Contributions from Members | \$2,840,163 | \$2,840,163 | 0.0% | |
| Japan | \$813,564 | \$813,564 | | |
| Australia | \$813,564 | \$813,564 | | |

² Most of these estimates are rounded up to the nearest \$100. Negative amounts are expected refunds of airfares due to COVID-19 related flight cancellations by the airline.

³ CSIRO is providing an in-kind contribution to these projects.
