

CCSBT-EC/0310/13

10. Indonesian Catch Monitoring

Purpose

To consider a report from the Extended Scientific Committee concerning the outcome of the Indonesian Catch Monitoring Workshop.

Discussion

A workshop to consider the monitoring of SBT catch in Indonesia was held on 14-15 April 2003. A copy of the workshop report is included in the CCSBT10 papers as CCSBT-EC/0310/Rep 12.

The report was considered at the Extended Scientific Committee meeting in September 2003 and the Chairman will present the Committee's findings.
