

CCSBT-EC/2210/07

## Review of SBT Fisheries and ERS Interactions

### Purpose

To provide an opportunity for discussion by Members on recent activities in the fishery.

### Background

All Members are requested to provide annual reports to the Compliance Committee (CC) and the Extended Commission (EC) in accordance with the template agreed at CC 16 and adopted at CCSBT 28, which is available at:

[https://www.ccsbt.org/userfiles/file/templates/Annual\\_CC-EC\\_Reporting\\_Template.docx](https://www.ccsbt.org/userfiles/file/templates/Annual_CC-EC_Reporting_Template.docx)

The latest update of the annual report template includes a section (1.3) for Members to report on actions taken to rectify any non-compliant issues identified in the previous Compliance Committee meeting.

At the EC meeting, the annual reports will be assumed to have been read. This agenda item is for questions, comments and follow-up discussion in relation to the reports.

The reports for this agenda item are provided as “CCSBT-CC/2210/SBT Fisheries” in the meeting document list.

In addition to the general review of SBT fisheries, a sub-agenda item has been included for Members to report on any projects they have conducted and for subsequent discussion in relation to these projects. This may include:

- A report by Australia on any trials it has conducted on automated stereo video; and
- An update by Japan on its proposal for ongoing monitoring of the Japanese market.
