**Provisional Agenda**

2. Status of Measures

*Measures to be considered include: Compliance with national quota allocations, monthly catch reporting, trade information scheme, authorised vessel and farm lists, scientific observer program, , and ERS mitigation measures. The CDS, VMS and transshipment measures are considered separately under agenda item 3.*

2.1. Report from Secretariat

2.2. Reports from Members and Cooperating Non-members (Reports on compliance related issues from National Reports), and assessment of compliance with measures

*Paragraph 16 of the report from the April Strategy and Fisheries Management Working Group (SFMWG) meeting noted the value of round table discussions that seek to examine the compliance of each Member and recommended the continuation of this exercise as a function of the Compliance Committee<sup>1</sup>. Presentation of reports on compliance with CCSBT measures by each Member and Cooperating Non-Member at this agenda item, followed by questions and recommendations would achieve this recommendation. It is assumed that Members will have read the submitted National Reports so there should be no need to re-present those items and the time can focus on questions and answers.*

*Members and Cooperating Non-Members are required to provide VMS summary reports in advance of the Compliance Committee meeting according to the format agreed in intersessional discussion (and attached to this agenda). The meeting will consider these reports.*

---

<sup>1</sup> *The SFMWG meeting also requested that the Secretariat present a summary of the round table discussions held at the informal meeting prior to the SFMWG meeting. The Secretariat will table such a summary.*
