

CCSBT-CC/0710/04

COMPLIANCE COMMITTEE MANAGEMENT MEASURES

Background

The purpose of this paper is to provide background information for the Compliance Committee on management measures that have been adopted by the CCSBT since its inception in 1994 and to provide an update on compliance with those measures.

Four management measures have been adopted by the CCSBT:

- setting a TAC and national allocations and reporting against these allocations
- a statistical document scheme (a trade documentation scheme)
- a vessel register
- an Action Plan to control IUU fishing

The first three measures directly relate to Members and Cooperating Non-members and are the subject of this paper.

The Action Plan was agreed as a measure to combat IUU fishing by third party countries participating in the SBT fishery but not cooperating with the CCSBT. The countries involved were Indonesia, Belize, Cambodia, Equatorial Guinea, Honduras and the Seychelles. None of these countries, except for Indonesia, appears to be currently active in the SBT fishery and the Action Plan has been effectively in abeyance since 2003.

TAC and National Allocations

This is the primary management measure of the CCSBT. Setting of a TAC and national allocations derives authority from Article 8, paragraph 3(a) of the Convention.

To set a TAC and national allocations, the CCSBT must agree to the levels. If levels are not agreed, no TAC and national allocations are set.

Since the inception of the CCSBT in 1994, TACs and national allocations have been agreed on a number of occasions and in every case prior to the 2007 season the settings for Members (for the years when they have been Members) have been:

Japan	6,065 tonnes
Australia	5,265 tonnes
New Zealand	420 tonnes
Republic of Korea	1,140 tonnes
Fishing Entity of Taiwan	1,140 tonnes

In a number of years, a TAC and national allocations have not been set. In these years members have either limited catch to a unilaterally determined level, or members have each agreed to voluntarily limit catch to the national allocations outlined above. In addition, members have adjusted national allocations from time to time to offset over-catches in previous years.

At its Thirteenth annual meeting the CCSBT agreed to a total allowable catch (TAC) for 2007-2009 of 11,810 tonnes, which is a TAC reduction of 3,115 tonnes. This TAC will only be reviewed before 2009 if exceptional circumstances emerge in relation to the stock. The allocation of the TAC amongst Members, Cooperating Non-Members and Observers are specified below:-

Members

The allocations below are fixed to 2011 for Japan and to 2009 for other Members.

Japan	3,000 tonnes
Australia	5,265 tonnes
New Zealand	420 tonnes
Republic of Korea	1,140 tonnes
Fishing Entity of Taiwan	1,140 tonnes

Cooperating Non-Members and Observers

The allocations amongst Cooperating Non-Members and Observers have only been set for 2007.

Indonesia	750 tonnes
Philippines	45 tonnes
South Africa	40 tonnes
European Community	10 tonnes

Furthermore, to contribute to the recovery of the SBT stock, Taiwan and the Republic of Korea undertook to maintain their actual catch below 1,000 tonnes for a minimum of 3 years. This will result in an actual catch level below 11,530 tonnes for a 3 year period.

Members and Cooperating Non-members are required to report annual catch against their national allocations. At CCSBT12 it was agreed that reporting of catch would move to a monthly basis from January 2006. The monthly catch reports for 2006 and 2007 are provided at Attachment A. At CCSBT13 it was agreed that there would be reporting of initial quota allocations and final catches on a per vessel or company basis. This information is provided in the private area of the CCSBT web site.

Statistical Document Program

Despite its formal title, this scheme should more correctly be described as a trade documentation scheme with the purpose of monitoring and managing trade in SBT. It was agreed to at CCSBT6 in March 2000 and modified at CCSBT9, CCSBT10 and CCSBT13. The current version of the scheme is at Attachment B.

The scheme's basic features are:

- A requirement for a document to accompany all exports of SBT by Members
- A standard form to be used

- Specification of the provision of information on the form for wild caught and farmed SBT
- Validation of the document by a competent authority of the country responsible for the harvesting of the SBT
- Importing Members to send documents accompanying consignments to the CCSBT Secretariat on a quarterly basis
- Exporting Members send an electronic list of exports to the Secretariat on a six monthly basis
- Compilation of the data from documents into an electronic database by the Secretariat together with reconciliation of the import and export data
- Preparation of six monthly reports by the Secretariat for Members
- Provision of six monthly reports on farming activity by Members
- Provisions for re-export activity.

Information on compliance with the reporting requirements of the Statistical Document Program is at Attachment C.

Authorised Vessel List

The CCSBT maintains a list of vessels authorised to fish for SBT. Vessels not on the list, which harvest SBT are deemed to have undertaken IUU fishing.

The vessel list was first agreed by resolution at CCSBT10 in October 2003. This resolution was amended at CCSBT11 in October 2004. The amendment removed a 24 metre threshold for listing vessels so that all vessels fishing for SBT were to be listed. A copy of the resolution is at Attachment D.

Only vessels flagged to Members and Cooperating Non-members may be placed on the list. This feature, combined with the linking of the list with the Statistical Document Program, has made the vessel list an important management measure of the CCSBT. Maintenance of the accuracy of the list by the Secretariat, with input from members, is necessary to avoid disruption to trade.

A report on activity associated with the CCSBT Authorised vessel list is at Attachment E.

Prepared by the Secretariat

Table 1: CCSBT Monthly Catch Reports for 2007
(catches are whole weights in kilograms)

With the exception of Table 1a, each cell in each table of this spreadsheet is static once information has been provided for that cell. This means that the data in this spreadsheet is not changed to incorporate updates provided for a previous month's catch. Consequently, to obtain the correct estimate of the year to date catch, you should look at the most recently provided cumulative catch as shown in Table 2 below

Table 1: Monthly Catch as Reported one Month after Catching

Updated November 2006

**CCSBT
Southern Bluefin Tuna Statistical Document Program**

1. Principle/General

- 1.1 For importation into the territory of a Member, all southern bluefin tuna shall be accompanied by a CCSBT Southern Bluefin Tuna Statistical Document. There is no waiver of this requirement.
- 1.2 Implementation of this Program shall be in conformity with relevant international obligations.
- 1.3 The Commission will review the implementation of this Program periodically in a timely manner to ensure the effectiveness and practicability of this Program.
- 1.4 The Commission requests the appropriate authorities of exporting countries/fishing entities to make the requirements under this Program known to their exporters.

2. Information Required

- 2.1 A standard CCSBT Southern Bluefin Tuna Statistical Document form along with its Instruction Sheet is at **Annex 1**. Countries/Fishing Entities are requested to use this form. While minimal modifications such as addition of translations may be made, the standard form should be adopted as far as possible and no information item may be omitted from the standard form. The form must be completed and checked in accordance with the minimum standards at **Annex 5**.
- 2.2 The import of farmed tuna should be treated in the following way:
 - (a) The Southern Bluefin Tuna Statistical Document shall be validated by the authority of the country/fishing entity where the tuna was raised;
 - (b) In reporting import data collected by the Program under 5.2 to Members, the Executive Secretary shall record the amount of imported farmed fish separately from the rest of the imports for each country/fishing entity;
 - (c) When completing the CCSBT Southern Bluefin Tuna Statistical Document for farmed tuna, the name of the export country/fishing entity shall be indicated in item 1 of Export Section of each Document instead of "Flag Country/Fishing Entity of Capture Vessel", and the name of the Tuna Farm shall be indicated in item 2 of Export Section of each Document instead of "Name of Vessel and Registration Number"; for item 6 (Description of Fish) of Export Section of each Document, "Gear Code" shall be "Farmed", "Net Weight" shall be filled in with the raised products' weight, and "Time of Harvest" and "Area of Catch" are not necessary to be filled in while other

columns shall be filled in as in the case of the normal Document;

- (d) Members shall maintain aggregated information on their tuna farms which raise exported tuna. The following information will be recorded: the name of the fishing vessel which caught the tuna for farming, the flag country/fishing entity of that fishing vessel, the gear code, the amount of original catch, the area of catch, the date of reception of tuna, and growth rate and mortality rate of fish through farming.
- (e) Members shall submit such information to the Secretariat every six months on average. Urgent requests for information outside this framework should be substantiated to the Commission by the requesting Member in order to minimise the burden of such requests.

3. Validation

- 3.1 The CCSBT Southern Bluefin Tuna Statistical Document shall be validated, in principle, by an official of the flag country/fishing entity of the vessel that harvested the tuna.
- 3.2 The requirement for validation of the Southern Bluefin Tuna Statistical Document by an official under 3.1 with respect to any member of the Commission may be met by an entity duly delegated by the authority of the flag country/fishing entity. The Member which utilizes a delegated entity should submit a certified copy of such delegation to the Executive Secretary.

4. Exchange of Information

- 4.1 If a Member modifies the standard Southern Bluefin Tuna Statistical Document form for its use, it shall provide to the Executive Secretary a copy of such modified form. The Executive Secretary shall provide the modified form to other Members and non-Members fishing and exporting southern bluefin tuna to Members.
- 4.2 Each Member shall provide to the Executive Secretary information on validation (e.g. type of validation, name of the organization which validates the documents, title of officials who validate the documents, sample impression of stamp or seal) and inform him of any change in a timely fashion. The Executive Secretary shall request information on validation from all non-Members fishing and exporting southern bluefin tuna to Members, and request them to inform him in a timely fashion of any change in the information provided.
- 4.3 The Executive Secretary shall maintain and update information specified in 4.1 and 4.2, and provide it to all Members and promptly circulate any changes.

5. Record and Report

- 5.1 Members which import southern bluefin tuna shall retain all original Southern Bluefin Tuna Statistical Documents received by them. They shall forward to the Executive Secretary on a quarterly basis copies of all such Documents, but may

omit the Import Section other than the final point of import and the date of import. The Executive Secretary shall compile the raw data from those Documents into an electronic database.

- 5.2 The Executive Secretary shall ensure the confidentiality of the raw data in its database and release to any country/fishing entity only the raw data relating to the Statistical Documents it validated. If a country/fishing entity requests raw data relating to another country/fishing entity, the Executive Secretary may release those data only with the latter's agreement.
- 5.3 The Executive Secretary shall report to the Commission on and circulate to all Members the data collected by the Program each year by 1 June for the period of 1 July - 31 December of the preceding year and by 1 December for the period of 1 January - 30 June of the current year. The formats of the reports are attached as **Annex 2** and **Annex 2a**. The Executive Secretary shall provide an electronic copy of the report only to a designated authority of each Member. The Secretariat will post on the CCSBT web site a subset of the report comprising:
 - Import country;
 - Flag country;
 - Harvest year;
 - Gear code;
 - Net weight.
- 5.4 On request by the Scientific Committee or another subsidiary body of the Commission, the Executive Secretary shall, with the approval of the Commission, provide to that body data collected by the Program more frequently or at a greater level of detail than specified in 5.3.
- 5.5 Upon receiving the import data mentioned in 5.3, Members that export SBT shall check their export statistics against them and report the results to the Commission. Where necessary, an exporting Member may obtain from the Secretariat a copy of any Statistical Document it validated, as forwarded to the Secretariat by the importing Member in accordance with 5.1.
- 5.6 The Commission instructs the Executive Secretary to request non-Members which are major importing countries/fishing entities of southern bluefin tuna to cooperate with implementation of the Program and to provide to the Commission data obtained from such implementation.
- 5.7 Subject to 5.9, exporting countries/fishing entities shall keep an electronic record of all SDP documents that they issue. For each SDP document issued, the electronic record will contain the:
 - Unique document number;
 - Whether the document was for captured or farmed SBT;
 - Date of export;
 - Total net weight of SBT exported;
 - Destination (import) country
 - It would also be useful to record the range of capture dates (e.g. Jan 2002 to Aug 2002) for captured SBT to provide more timely data for stock assessment purposes.

- 5.8 Subject to 5.9, exporting countries/fishing entities shall provide an electronic copy of the record from 5.7 to the Executive Secretary. The record shall be provided by 1 May for all exports for the period of 1 July to 31 December of the preceding year and by 1 October for all exports for the period of 1 January to 30 June of the current year.
- 5.9 Exporting countries/fishing entities shall be exempted from 5.7 and 5.8 if they fax copies of all SDP documents to the Executive Secretary. Faxed copies of SDP documents shall be sent within 30 days of the export.
- 5.10 The Executive Secretary shall compare data provided in 5.8 and 5.9 against SDP data received from importing members. The Executive Secretary shall notify the importing members of any missing documents and the importing Member shall attempt to locate and provide those documents. The Executive Secretary shall also notify the exporting country/fishing entity of any discrepancies identified during the comparison of data and the exporting country/fishing entity will attempt to resolve the discrepancies.

6. Re-export

- 6.1 A Member may validate a CCSBT Southern Bluefin Tuna Re-export Certificate (a standard form is attached as **Annex 3**) for southern bluefin tuna imported by that Member, to which a CCSBT Southern Bluefin Tuna Statistical Document or CCSBT Southern Bluefin Tuna Re-export Certificate is attached. The CCSBT Southern Bluefin Tuna Re-export Certificate shall be validated by an official or by an entity duly delegated by the authority of a Member to validate the CCSBT Southern Bluefin Tuna Statistical Document under 3.2. A copy of the original Southern Bluefin Tuna Statistical Document accompanying the imported southern bluefin tuna must be attached to CCSBT Southern Bluefin Tuna Re-export Certificate. The copy of original Southern Bluefin Tuna Statistical Document so attached must be verified by that official or by that entity duly delegated by the authority of a Member which validate the CCSBT Southern Bluefin Tuna Statistical Document. When re-exported southern bluefin tuna is again re-exported, all copies of documents, including verified copy of a Statistical Document and Re-export Certificate which accompanied that southern bluefin tuna upon importation, must be attached to a new Re-export Certificate to be validated by a re-exporting Member. All copies of the Documents to be attached to that new Re-export Certificate must also be verified by an official or an entity duly delegated by the authority of a Member which validated the CCSBT Southern Bluefin Tuna Statistical Document.
- 6.2 Members which import southern bluefin tuna shall accept the Re-export Certificate set forth in 6.1 with attachments of all verified copies as required in 6.1.
- 6.3 Members that validate a Re-export Certificate in accordance with the procedure set forth in 6.1 shall require from the re-exporting southern bluefin tuna dealer necessary documents (e.g. written sales contracts) which are to certify that the southern bluefin tuna to be re-exported corresponds to the imported southern

bluefin tuna. Members which validate a Re-export Certificate shall provide the flag country/fishing entity and importing country with evidence of this correspondence upon their request.

- 6.4 The Executive Secretary shall report on and circulate to all Members the data obtained from Re-export Certificates each year by 1 April for the period of 1 July - 31 December of the preceding year and by 1 October for the period of 1 January - 30 June of the current year. The format of the report is attached as **Annex 4**.
- 6.5 Members may accept a Re-export Certificate validated by a non-Member which has established a scheme substantially identical to the CCSBT Southern Bluefin Tuna Statistical Document Program and implements it in accordance with the requirements of the Program.
- 6.6 The provisions of 5.1 and 5.2 apply also to any Re-export Certificate required to be attached to a Southern Bluefin Tuna Statistical Document.

Southern Bluefin Tuna Statistical Document Instruction Sheet

If a language other than English is used in completing the form, please add the English translation on the Document.

Document Number

Fill in the document number allocated by the exporting country/fishing entity.

Title

Tick the appropriate box.

Export Section

1. Flag Country/Fishing Entity of Capture Vessel

Fill in the name of the country/fishing entity of the registration of the vessel that harvested the southern bluefin tuna in the shipment. This should be the same country/fishing entity as issued this Document. *In case of farmed fish, the name of exporting country/fishing entity should be filled in instead of the name of the country/fishing entity of the vessel.*

2. Name of Vessel and Registration Number (when available)

Fill in the name and registration number of the vessel that harvested the southern bluefin tuna in the shipment. *In case of farmed fish, the name of tuna farm should be filled in instead of the name and registration number of the vessel.*

3. Information of Other Forms of Capture (eg. Trap)

If the southern bluefin tuna in the shipment was caught by means other than the vessel (eg. Trap), fill in the means.

4. Processing Establishment

Fill in the name and address of the processing establishment which processed the southern bluefin tuna in the shipment (if applicable). If it is the same as the exporter, write "same as exporter".

5. Point of Export (City, State or Province and Country/Fishing Entity)

Identify the City, State or Province and Country/Fishing Entity from which the southern bluefin tuna was exported.

6. Destination of Product

Fill in the Country/Fishing Entity to which the southern bluefin tuna is being exported.

7. Description of Fish

The exporter must provide, to the highest degree of accuracy, the following information. NOTE: One row should describe one product type.

- (1) product: Identify the type of product being shipped as either FRESH (F) or FROZEN (FR),
- (2) type: Identify the type of product being shipped as either ROUND (RD), GILLED AND GUTTED (GG), DRESSED (DR), FILLET (FL) or OTHER form (OT); for OTHER, describe the type of products in the shipment,

- (3) time of harvest: Fill in the time of harvest (in month and year) of the southern bluefin tuna in the shipment; *in case of farmed fish, it is not necessary to fill in this column,*
- (4) gear code: Identify the gear type which was used to harvest the southern bluefin tuna using the list below; for OTHER TYPE, describe the type of gear; *in case of farmed fish, write "Farmed",*

<u>GEAR CODE</u>	<u>GEAR TYPE</u>
BB	Baitboat
GILL	Gillnet
HAND	Handline
HARP	Harpoon
LL	Longline
MWT	Mid-water Trawl
PS	Purse Seine
RR	Rod and Reel
SPHL	Sport Handline
SPOR	Sport Fisheries Unclassified
SURF	Surface Fisheries Unclassified
TL	Tended Line
TRAP	Trap
TROL	Troll
UNCL	Unspecified Method
OT	Other Type

- (5) area of catch: Identify the area in which the southern bluefin tuna was harvested using numbers from 1 to 15 (see the map attached); *in case of farmed fish, it is not necessary to fill in this column,*
- (6) net weight: Net product weight in kilograms; *in case of farmed fish, fill in the raised product's weight,*
- (7) no. of fish: If type is RD, GG or DR, fill in the number of fish.

8. Exporter Certification

The person or company exporting the southern bluefin tuna shipment must provide his/her/its name, address, signature, date the shipment was exported, and dealer licence number (if applicable).

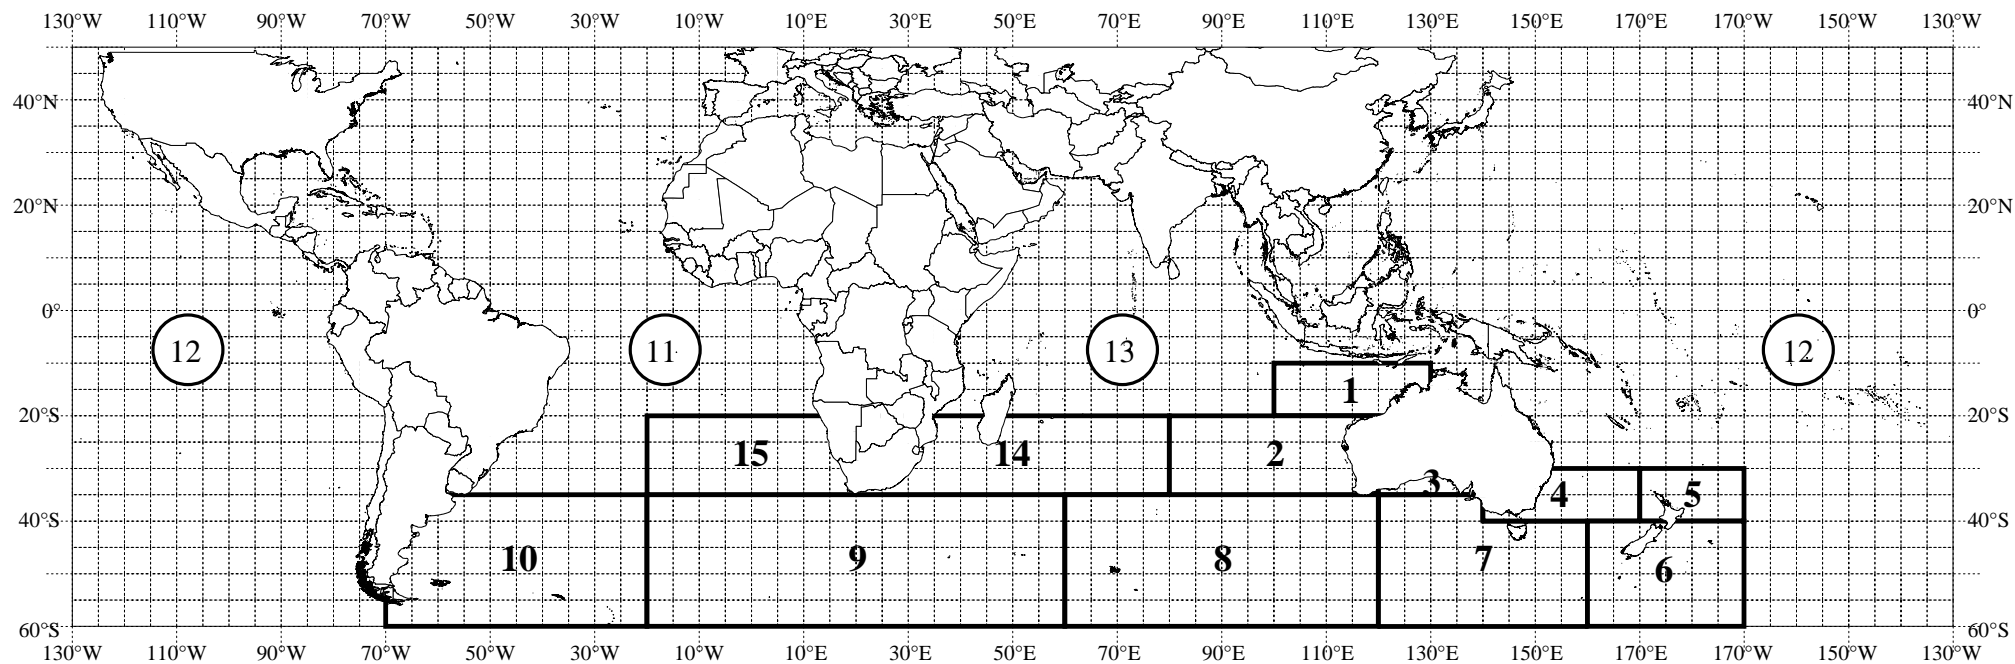

9. Validation by Authority

Fill in the name and full title of the official signing the Document. The official must be in the employment of the competent authority of the flag state/fishing entity of the vessel that harvested the southern bluefin tuna appearing on the Document. This requirement with respect to any Member of the Commission may be met by an entity duly delegated by the authority of the flag country/fishing entity. The Member which utilizes a delegated entity should submit a certified copy of such delegation to the Executive Secretary.

Import Section

The person or company that imports southern bluefin tuna must provide his/her/its name, address, signature, date on which the southern bluefin tuna was imported, licence number (if applicable) and final point of import. This includes imports into intermediate country (if applicable). For fresh and chilled product, the signature of the importer may be substituted by a person of a customs clearance company when the authority for signature is properly accredited to it by the importer.

Note: Instructions relating to farmed fish are written in italic letters.

NOTE: Statistical areas 14 and 15 are "new" statistical areas for the Statistical Document Program. These statistical areas must be used for reporting catches in these areas from 1 April 2007. Prior to this date, catches in statistical areas 14 and 15 should be reported as being from statistical areas 13 and 11 respectively.

Minimum Standards for completion of CCSBT Statistical Documents

1. Responsibility of Exporter and Exporting Country/Fishing Entity

- 1.1. The exporter is responsible for completing the export section of the statistical document (except for item 9 - validation) and the source of the product (captured or farmed).
- 1.2. The exporting country/fishing entity is responsible for enforcing correct completion of each statistical document. The export section (items 1-9), the document number and the source of the product (captured or farmed) must be correctly completed in accordance with the instruction sheet of Annex 1.
- 1.3. The exporting country/fishing entity must ensure that the validator is responsible for checking that the statistical document is fully completed and is correct. The validation section of the statistical document should only be completed and the export approved when this check has been conducted and the statistical document has been determined to be complete and correct.

2. Responsibility of Importer and Importing Country/Fishing Entity

- 2.1. The importer is responsible for completing the import section of the statistical document.
- 2.2. The importing country/fishing entity is responsible for enforcing correct completion of the import section of each statistical document. The import section must be correctly completed in accordance with the instruction sheet of Annex 1.
- 2.3. If any information specified in 1.2 is missing, illegible or incorrect, the importing member country/fishing entity should report such deficiencies to the Secretariat. The reports will be provided to the Secretariat on a quarterly basis. The report will include the document number in question and identify the missing, illegible and/or incorrect information.

3. Responsibility of the Executive Secretary

- 3.1. The Executive Secretary will monitor the accuracy and completeness of all statistical documents received.
- 3.2. When information on SDP documents is found to be missing or inaccurate, the Executive Secretary will contact the countries/fishing entities involved¹ to advise them of what they are required to provide and to request that the missing/inaccurate information be provided or corrected². If the requested information is not supplied within an appropriate time frame, or if information is repeatedly omitted by a country/fishing entity, the Executive Secretary will refer the matter to the Extended Commission for consideration.

¹ This will be the export country/fishing entity for all items of information except the import section, which will be the import country.

² It is expected that the exporting country/fishing entity would take appropriate action against the exporting company/validators if information is repeatedly omitted.

Compliance with Reporting Requirements of the CCSBT Statistical Document Program (SDP)

Unless otherwise stated, information provided in this attachment refers to exports for the 12 month period from 1 April 2006 to 31 March 2007. The Secretariat is not due to obtain information on April-June 2007 exports till 30 September, which is too late for preparation of this report.

The CCSBT Trade Information Scheme (TIS) contains a number of reporting obligations and this paper summarises compliance with those obligations.

Copies of TIS documents accompanying SBT imports to be provided to the Executive Secretary on a quarterly basis (sections 5.1, 6.6 of the SDP)

- With the exception of the European Community (EC), Members and Cooperating Non-Members have complied with this requirement. Deadlines for providing the data have occasionally been missed, but usually, the information has been provided promptly.

Exporters to provide an electronic copy of TIS documents issued on a twice annual basis (1 October 2006 and 1 May 2007) to the Executive Secretary (section 5.8 of the SDP)

- All Members and Cooperating Non-Members have complied with this requirement (except for a few late submissions). The European Community has not provided this information, but most of the required information was for exports prior to when the EC became a Cooperating Non-Member.

Secretariat to provide 6 monthly reports on a twice annual basis (1 December 2006 and 1 June 2007) (sections 5.3 and 6.4 of the SDP)

- The Secretariat has complied with these requirements, providing these reports on 1 December 2006 and 30 May 2007.

Aggregated information on tuna farms to be submitted to the Secretariat every six months on average (section 2.2e of the SDP).

- Australia has complied with this requirement, submitting reports on 12 March 2007 and 6 September 2007.

Members and Cooperating Non-Members are required to inform the Executive Secretary of any changes in validation details (e.g. officials) in a timely fashion (section 4.2 of the SDP)

- With the exception of the EC, Members and Cooperating Non-Members have been providing information concerning changes in validation details. This information is kept up to date in the Document Exchange (private) area of the CCSBT web site.

TIS documents should be fully and accurately completed and the documents should be checked in accordance with the minimum standards in Annex 5 of the SDP.

- The Secretariat has checked all TIS documents in accordance with Annex 5 of the SDP. A reduced number of omissions and errors have occurred in comparison with previous years. All problems were referred to the relevant country/fishing entity for correction. Most problems were resolved through this process, but a small number were not. Table 1 shows the number of TIS documents received for exports from each relevant country/fishing entity

from April 2006 to March 2007 respectively, together with the number (and percentage) of documents for which problems remain. It should be noted that certain types of problems are difficult to resolve after the fact because the necessary information may not exist. Table 2 provides a breakdown of the problems remaining in the export section of these documents and Table 3 provides a summary and breakdown of problems remaining with import section.

Table 1: Summary of the number of TIS documents received and the percentage of these documents with problems remaining in the export section of the document after corresponding with the relevant countries/fishing entities.

	Australia	Japan	Korea	New Zealand	Taiwan	Philippines	South Africa	European Community
Number of TIS documents received	1038	4	11	136	44	4	0	0
Number of incomplete/incorrect TIS documents after corresponding with the exporting country in an attempt to correct any problems	7	4	0	3	0	2	-	-
Final error rate (% of documents)	0.6	100	0	2.2	0	50	-	-

Table 2: Breakdown of problems remaining in the export section of TIS documents after corresponding with the relevant exporting countries/fishing entities.

Type of Problem	Australia	Japan	Korea	New Zealand	Taiwan	Philippines	South Africa	European Community
Vessel not recorded on the CCSBT authorised vessel list at the date of export ¹	0	0	0	1	0	0	-	-
Missing export city	0	0	0	1	0	0	-	-
Missing export country	0	0	0	1	0	0	-	-
Missing destination country	0	0	0	2	0	0	-	-
Harvest date provided as a range spanning months	0	4	0	0	0	2	-	-
Multiple statistical areas provided for a single fish description record	0	1	0	0	0	0	-	-
Missing validator signature	7	0	0	0	0	0	-	-

¹ CCSBT Members and Cooperating Non-Members should not accept SBT imports from vessels that are not on the CCSBT authorised vessel list.

Table 3: Summary and breakdown of problems remaining in the import section of TIS documents after corresponding with the relevant importing countries/fishing entities.

	Australia	Japan	Korea
Summary of problems			
Number of documents received	6	1221	10
Number of incomplete/incorrect TIS documents after corresponding with the importing country in an attempt to correct any problems	1	0	0
Final error rate (% of documents)	66.7	0	0
Breakdown of problems			
Missing import city	1	0	0
Missing TIS documents² These are not included in the summary of problems above because there can be a number of reasons for missing TIS documents other than importer error, including: the export still being in transit to the importing country, the destination being changed after shipment without notification, mistakes in reporting by the exporter.	0	33 ³	0

² These are TIS documents that an exporting country/fishing entity has reported to the Secretariat as being sent to the importing country, but from which the Secretariat has not received a TIS document.

³ This comprises exports from Australia (14 documents), Taiwan (4 documents), New Zealand (14 documents), South Africa (presumed to be 1 document from Japanese import statistics).

Attachment D

Resolution on amendment of the Resolution on “Illegal, Unregulated and Unreported Fishing (IUU) and Establishment of a CCSBT Record of Vessels over 24 meters Authorized to Fish for Southern Bluefin Tuna” adopted at the CCSBT10 in 2003

(adopted at the Eleventh Annual Meeting – 19-22 October 2004)

Resolution on amendment of the Resolution on “Illegal, Unregulated and Unreported Fishing (IUU) and Establishment of a CCSBT Record of Vessels over 24 meters Authorized to Fish for Southern Bluefin Tuna” adopted at the CCSBT10 in 2003

The Extended Commission for the Conservation of Southern Bluefin Tuna,

Noting that the Resolution on “Illegal, Unregulated and Unreported Fishing (IUU) and Establishment of a CCSBT Record of Vessels over 24 meters Authorized to Fish for Southern Bluefin Tuna (hereinafter referred to as “the original Resolution”) ” was adopted at its 10th annual meeting in 2003;

Further Noting that substantial amount of Southern Bluefin Tuna has been and are harvested by vessels less than 24 meters operating under flags of non-members to the CCSBT which are not covered by the original Resolution;

Considering the urgent need to take further comprehensive approach to deter IUU fishing activities; and

Recognizing technical difficulties for import states to establish effective inspection schemes on import of fresh tuna products.

Agrees, in accordance with paragraph 3(b) of Article 8 of the CCSBT Convention, that:

The provision regarding vessel size limitation in the original Resolution which applies to those more than 24 meters is removed, and the original Resolution is amended as follows:

1. The Contracting Parties, Member of the Extended Commission and Cooperating Non-Members shall:
 - a. ensure that all vessels under their registry do not carry out IUU fishing activities for southern bluefin tuna;
 - b. take every possible action, consistent with relevant law, to prevent, deter and eliminate IUU fishing; and
 - c. review progress on the issue of IUU fishing for SBT and the implementation of it’s IUU measures including adopting further measures as required on a regular basis.

2. The Extended Commission shall establish and maintain an CCSBT Record of fishing vessels (hereinafter referred to as "fishing vessels" or "FVs") authorized to fish for SBT. For the purpose of this recommendation, FVs not entered into the Record are deemed not to be authorized to fish for, retain on board, tranship or land SBT.

3. Each Member of the Extended Commission (hereinafter referred to as "Member"), and Co-operating Non-member shall submit electronically, where possible, to the Executive Secretary by 1 July 2005, the list of FVs flying its flag that are authorized to fish for SBT. This list shall include the following information:

- Name of vessel(s), register number(s);
- Previous name(s) (if any);
- Previous flag(s) (if any);
- Previous details of deletion from other registries (if any);
- International radio call sign(s) (if any);
- Type of vessel(s), length and gross registered tonnage (GRT);
- Name and address of owner(s) and operator(s);
- Gear(s) used; and
- Time period authorized for fishing and /or transhipping.

The Members and Co-operating Non-members shall indicate, when initially submitting their list of vessels according to this paragraph, which vessels are newly added or meant to replace vessels currently on their list submitted to the Executive Secretary. The initial CCSBT record shall consist of all the lists submitted under this paragraph.

4. Each Member and Co-operating Non-member shall promptly notify, after the establishment of the initial CCSBT Record, the Executive Secretary of any addition to, any deletion from and/or any modification of the CCSBT Record at any time such changes occur.

5. The Executive Secretary shall maintain the CCSBT Record, and take any measure to ensure publicity of the Record and through electronic means, including placing it on the CCSBT website, in a manner consistent with confidentiality requirements noted by the Members and Co-operating Non-members.

6. The flag Members and Co-operating Non-members of the vessels on the record

shall:

- a) authorize their FVs to fish for SBT only if they are able to fulfill in respect of these vessels the requirements and responsibilities under the CCSBT Convention and its conservation and management measures;
- b) take necessary measures to ensure that their FVs comply with all the relevant CCSBT conservation and management measures;
- c) take necessary measures to ensure that their FVs on the CCSBT Record keep on board valid certificates of vessel registration and valid authorization to fish and/or tranship;
- d) affirm that if those vessels have record of IUU fishing activities, the owners have provided sufficient evidence demonstrating that they will not conduct such activities any more;
- e) ensure, to the extent possible under domestic law, that the owners and operators of their FVs on the CCSBT Record are not engaged in or associated with fishing activities for SBT conducted by FVs not entered into the CCSBT Record;
- f) take necessary measures to ensure, to the extent possible under domestic law, that the owners of the FVs on the CCSBT Record are citizens or legal entities within the flag Members and Co-operating Non-members so that any control or punitive actions can be effectively taken against them.

7. The Members and Co-operating Non-members shall review their own internal actions and measures taken pursuant to paragraph 5, including punitive and sanction actions and in a manner consistent with domestic law as regards disclosure, report the results of the review to the Extended Commission at its 2005 meeting and annually thereafter. In consideration of the results of such review, the Extended Commission shall, if appropriate, request the flag Members and Co-operating Non-members of FVs on the CCSBT Record to take further action to enhance compliance by those vessels to CCSBT conservation and management measures.

8. a) The Members and Co-operating Non-members shall take measures, under their applicable legislation, to prohibit the fishing for, the retaining on board, the transhipment and landing of SBT by the FVs which are not entered into the CCSBT Record.
- b) To ensure the effectiveness of the CCSBT conservation and management measures pertaining to SBT Statistical Document Programs:
 - i) flag Members and Co-operating Non-members shall validate statistical

documents only for the FVs on the CCSBT Record,

- ii) the Members and Co-operating Non-members shall require that SBT caught by FVs, when imported into the territory of a Member be accompanied by statistical documents validated for the vessels on the CCSBT Record and,
- iii) the Members and Co-operating Non-members importing SBT and the flag States of vessels shall co-operate to ensure that statistical documents are not forged or do not contain misinformation.

9. Each Member and Co-operating Non-member shall notify the Executive Secretary of any factual information showing that there are reasonable grounds for suspecting FVs not on the CCSBT record to be engaged in fishing for and/or transshipment of SBT.

10 a) If a vessel mentioned in paragraph 8 is flying the flag of a Member and Co-operating Non-member, the Executive Secretary shall request that Member and Co-operating Non-member to take measures necessary to prevent the vessel from fishing for SBT.

b) If the flag of a vessel mentioned in paragraph 8 cannot be determined or is of a non-Member without cooperating status, the Executive Secretary shall compile such information for future consideration by the Extended Commission.

11 The Extended Commission and the Members and Co-operating Non-members concerned shall communicate with each other, and make the best effort with FAO and other relevant regional fishery management bodies to develop and implement appropriate measures, where feasible, including the establishment of records of a similar nature in a timely manner so as to avoid adverse effects upon other tuna resources in other oceans. Such adverse effects might consist of excessive fishing pressure resulting from a shift of the IUU FVs from fishing for SBT to other fisheries.

12 Before the Extended Commission decides to implement measures specified in paragraph 8, the Extended Commission and the Members shall contact all the relevant countries to inform of this resolution and consult with them, and give them sufficient time to adopt themselves to this resolution. They shall continue to encourage non-Contracting Parties to become Members or Co-operating non-Members.

Activity Associated with the CCSBT Authorised Vessel List

This attachment provides a variety of summaries relating to the CCSBT Authorised Vessel list to provide a general indication of changes in the authorised list through time.

Table 1: Number of authorised vessels per flag and year.

Flag	Vessels authorised on 1 September 2004	Vessels authorised on 1 September 2005	Vessels authorised on 1 September 2006	Vessels authorised on 1 September 2007
Australia	111	270	60	56
Japan	506	506	142	145
