

CCSBT-EC/0310/12

9. Management Procedure

Purpose

To consider the advice of the Extended Scientific Committee on proposals for further development of the CCSBT management procedure in 2004 and to respond to the Extended Committee's request for guidance on management objectives for the SBT fishery.

Discussion

The Independent Chair of the Scientific Committee will present this item.

A presentation on the trade-offs between catch and biomass and questions that will need to be addressed when selecting management procedures will be given to inform the discussion of the Extended Commission.

The Extended Scientific Committee's discussion and recommendations on the management procedure are recorded in section 5.4 of the Committee's report presented to this meeting as CCSBT-EC/0310/Rep14.
