

CCSBT-EC/1110/10

## REPORT FROM THE EXTENDED SCIENTIFIC COMMITTEE

### Purpose

To consider the report of the Extended Scientific Committee (ESC) meeting and related matters.

### Discussion

The Report of the Sixteenth Meeting of the Scientific Committee (SC16) is provided to this meeting as CCSBT-EC/1110/Rep03. This report was presented to the August 2011 Special Meeting of the Extended Commission by the ESC Chair. The ESC Chair's presentation is provided to this meeting as CCSBT-EC/1110/BGD01.

The Special Meeting has adopted the report of SC16, so it is anticipated that no further presentation of the SC16 report will be required at CCSBT 18. However, the ESC Chair will be available to answer questions and to provide advice.

The Special Meeting requested further work from Member scientists in relation to a management procedure and for the results from this work to be presented to CCSBT 18. It is envisaged that a paper containing these results will be provided in advance of CCSBT 18 and that the results will be presented at this agenda item.
