

CCSBT-EC/1310/18

Confidentiality of Data and Documents

Purpose

To determine whether the reports of any meetings or any documents produced for meetings related to CCSBT 20 should be restricted from public release.

Confidentiality of reports and documents from 2013

Rule 10 of the Rules of Procedure provides that the reports prepared of Extended Commission meetings will be made available for public release unless a Member makes a request to restrict its release. Such a request must be made before adoption of the report of the Extended Commission. Restrictions on release of a report require a decision from the Extended Commission.

Documents submitted to Extended Commission meetings are also to be made available for public release unless the document contains previously restricted information, or unless the author of the document or the Member (if the author is a representative of a Member) makes a request to restrict its release. Such a request must be made before adoption of the report of the Extended Commission.

The 2006 Farm and Market review reports have been classified as confidential and consequently other documents that include estimates of unreported catches derived from these documents must also be kept confidential. For 2013, this includes:

- A catch table incorporating this information that was prepared by the Secretariat and included in the material considered at the 2013 meeting of the Extended Scientific Committee. The Secretariat requests that Attachment A of this paper (CCSBT-ESC/1309/04) be treated as confidential.

The Secretariat submitted a paper on the Costs and benefits of a web-based eCDS for the CCSBT (CCSBT-CC/1310/16) to the Compliance Committee. This paper contains Commercial-in-Confidence information from commercial suppliers that provided cost estimates and proposals for developing a CCSBT eCDS. Consequently, the Secretariat requests that this paper also be treated as confidential.

At the time of writing this document, no other documents have been nominated to the Secretariat as having a confidential status.
